### “SEE University – Virtual Campus”

Coordinator Prof. Dr. Zamir Dika

The SEE University – Virtual Campus is going to be a complete 3-Dimensional modeling of a South Eastern University located in Tetovo. The main purpose of this project is:

- To investigate the required infrastructure required to create and maintain virtual campus
- To investigate the possibilities of integrating services in virtual campus to support distributed distance learning
- To make possible for visitors worldwide to get acquired with our university campus, by allowing real- time walkthrough campus in 3 – D virtual environment.
